

FRP Universal Door

A Facility Manager's Solution to the Hollow Metal Door Money Pit!

Special-Lite's new versatile Fiberglass Reinforced Polyester door offers a durable and money saving solution to replacing old, rusty, hollow metal doors.

This versatile door features an innovative design that provides a one model fits all approach . . . or just about! Our universal design brings an "In Stock" durable door to handle those hollow metal replacement emergencies! Why settle for a hollow metal door when you have the option to replace an opening with a door that will outlast and outperform hollow metal?

Special-Lite's long-lasting universal door is the perfect fit for the following applications:

- Restaurant service doors
- Retail service doors
- Warehouse
- Manufacturing
- Maintenance and utility service doors
- . . .or anywhere the door will be abused or forced to fight the elements.
